

CLAIM OR CLAIMS:

"What I claim as my invention is, the Intruder Monitor System." "I Johnny Hilton-Bey, claim the Security System will monitor a place without a person at the control and record and sound the alarms." If a person have a small TV that can be hooked up to the Intruder Monitor System they can monitor their place when they are out walking to the store or out driving around. If a person have two or more of these Intruder Monitor System. A person can have the camera hooked up to his or her place. Give one of the Universal Monitor Device to another person to hook up to another TV. and VCR. that they can trust to help secure the recording tape. This Security System also can be used to check on family or friends with their written consent and they knowing of it. The Motion Detectors light stays on in a place with this system to let someone know somebody has been in their place. The Motion Detector turns on and off the Television. The Motion Detector also turns the recorder on and off. The other Motion Detector Lights goes out when the alarm stop sounding. This Security System, if hooked up to a TV. or VCR. with Cable or a Game System. The Game and Cable System will not interfere with the Security System.
